

Financial Solutions – Process Consultancy

Company profile

Detaco is a young organization operating in the financial areas of business. It advises its relations and offers temporary solutions for administrative roles, finance and business control positions and on financial management and executive levels.

Job title

Finance Professional

Job description

As an external member of a project team you will contribute to the improvement of the financial processes within a company (mostly multinationals). In an increasing manner you will find that your tasks will become project oriented. You will be active in the areas of control and accounting, in which you will create internal and external (financial) statements.

The top 5 of your duties will be:

- Preparing the information required for creating monthly financial statements.
- Supporting role in determining budgets and creating forecasts.
- Responsible for accurate data with respect to information on which the management will base its decisions.
- Interpretation of figures in relation to complex corporate processes.
- Analyzing of and connecting to the financial administration and / or business procedures.

DETACO

Financial Solutions – Process Consultancy

Requirements

- HBO degree in a financial or economic area.
- Between 6 months and a maximum of 5 years of relevant work experience.
- Experience and / or affinity with ERP systems.
- Strong communicative and analytical skills.
- Thorough, hands-on and proactive.
- Fluent in the Dutch and English language.

Our offer

Your salary will be in accordance with your occupation within Detaco and your work experience. At Detaco we work hard, but we keep the balance between profession, education and private life in consideration. Equally important to us is that you remain developing yourself, both professionally and personally. If you start as a finance professional with Detaco you will experience variation, development and the challenge of executing different projects with multiple organizations.
