

## Financial Solutions – Process Consultancy

### Company profile

Detaco is a young organization operating in the financial areas of business. It advises its relations and offers temporary solutions for administrative roles, finance and business control positions and on financial management and executive levels.

### Job title

## Process Consultant

### Job description

As an experienced consultant can you come up with the best 'out of the box' solutions? Do you see an infinite number of possibilities for your customers? At Detaco you will advise international top corporations in the areas of growth, innovation, strategy and integration. As a consultant you will work in multi-disciplinary team on projects with much variety with the aim of improving the organization's company procedures.

A global business transformation, working capital reduction projects or process optimization trajectories with world-class multinational businesses are amongst the common projects Detaco works on. In an increasing manner you will find that your tasks will become entire projects.

The top 5 of your duties will be:

- Defining, analyzing and mapping of corporate processes (supply chain, sales and/or finance) and the related impact on the ERP systems in the organization.
- Establishing the business requirements for various functional areas.
- Supporting the program management.
- Preparing and hosting workshops aimed at forming process designs and improvements.
- Facilitating the development and implementation of process improvements, as a consultant you will contribute to enhancing the financial procedures around the conduct of business in the corporations (mostly multinationals).

## Financial Solutions – Process Consultancy

### Requirements

- HBO / WO degree in Business Administration, Economics and / or IT.
- At least 3 to 10 years of experience in business process improvements, supported by knowledge on ERP systems.
- Fluent in the Dutch and English language.
- Strong analytical capabilities.
- Extraordinary passion for the improvement of corporate processes, which is reflected in your work experience and educational background.
- Strong communication skills allowing you to come to good solutions in cooperation with the client.

### Our offer

Your salary will be in accordance with your occupation within Detaco and your work experience. At Detaco we work hard, but we keep the balance between profession, education and private life in consideration. Equally important to us is that you remain developing yourself, both professionally and personally. If you start as a consultant with Detaco you will experience variation, development and the challenge of executing different projects with multiple organizations.
